"It is useless to wait, for a u-turn, a parking lot to turn around in, a rest stop, or a one way street. To go on driving with the flow of traffic is madness. The wrong way driver is not coming, it is here. We are already reversing the wrong way up the highway onramp of revolution."

\Throughout the past century it has been hypothesized by the marxists (incorrectly so) that societal evolution follows a linear pattern, with humans progressing forward, from fuedalism, to capitalism, to socialism and eventually communism as the final stage of societal evolution.

"Marx says that revolutions are the locomotives of world history. But the situation may be quite different. Perhaps revolutions are not the train ride, but the human race grabbing for the emergency brake, and then going in reverse."

-Walter Benjamin

Do not go gentle into that good night,  
Old age should burn and rave at close of day;  
Rage, rage against the dying of the light.

- me accelerating through a dead red light, about to merge onto the left side of the road

Don't wanna end up like a martyr  
Stuck thinking that I got it harder  
Rip out the rusty nails  
We could use a hand

But someone's always trying to tell me who I am  
Who to love and how to fuck and how it's time to pay the rent  
Kick down the door and come outside

I touch the ground  
Send my roots deep down  
Try to stick around

Brains on the ground now I'm burning rubber  
Siren sounds I'm in trouble trouble trouble  
Learned my name now I'm a criminal  
I'm trying to stand in my power  
I'm trying to stand in my power  
Our voices getting louder  
Okay

I touch the ground  
Send my roots deep down  
Try to stick around

It's like a wrong way on a one way street
